To whom it may concern,

We have been working with Fargo Assembly for around 15 years and over that time have developed a very close working relationship.

We produce bespoke systems and machines for our Customers which creates a lot of variation on the components that we require for each project. Fargo Assembly provides a quick response on quotes for new harness assemblies and subsequently delivers in line with our build requirements. They pro-actively work with us to ensure that they have the key component material available in stock to provide a fast turn-around from order placement to delivery.

We find Fargo Assembly to be flexible, responsive and willing to accommodate our requirements.

We would have no hesitation in recommending Fargo Assembly to other businesses as a partner for Wiring Harness assemblies.

Regards

Steve Castle
